Bogota Colombia

Skills

Knowledge of CSS, HTML, JavaScript, C#, React.JS and Next.JS

SQL database management

Creativity

Assertive communication

Interdisciplinary vision

Languages

English B2

Professional in Philosophy and Technologist in Software Analysis and Development. With knowledge in programming, specifically in SQL server databases, HTML, CSS3, GitHub, JavaScript, C#, React.JS and Next.JS. I have developed different personal and group projects with these languages that you can see on my GitHub.

My experience as a teacher has allowed me to develop my skills in conflict resolution, assertive communication, teamwork, and project leadership.

Work experience

2023-05 - current **Programming Trainee - Analyst**
Servientrega SA, Bogotá

- Perform SQL queries to retrieve data from databases, filter information and generate reports according to the needs of the company.
- Design, implement and test web and RESTful APIs in the .NET development environment, using tools such as Visual Studio, C#, ASP.NET Core and Entity Framework.
- Write and maintain SQL scripts to automate tasks, perform data updates, and optimize database performance.

Achievements:
- I implemented a company news website to be displayed on televisions on local servers.

Projects

- Portfolio (https://maikcolguevara.vercel.app/)

- Fun whit Flags (events app with time zone conversion, collaborative work) (https://github.com/deinsoftware/fun-with-flags)

- Website (React) and API (fastapi) for a school enrollment management system using database (SQL) (https://github.com/Alexis033/miweb)

- Text encrypter with JS (https://alexis033.github.io/encriptador/)

- Film search engine and more projects in react (https://github.com/Alexis033/Aprendiendo-React/tree/main/projects)

Education

- 2017-09 **DEGREE IN PHILOSOPHY**
National University of Colombia, Bogotá

- Studying **TECHNOLOGIST IN SOFTWARE ANALYSIS AND DEVELOPMENT.**
SENA, Bogotá
